Ancient Egypt. An extraordinary sky.

JULY 26 - AUGUST 4, 2027

A richer chapter in Cairo, private cultural discovery, and time to settle into Luxor before totality. Designed for travelers who want the eclipse woven into an absorbing Egypt journey.

10 DAYS / 9 NIGHTS / CAIRO + LUXOR

YOUR JOURNEY / THE ARRIVAL

The days, thoughtfully arranged.

Cairo 4 nights / Luxor 5 nights

JUL 26

A considered arrival

01

CAIRO

An arranged airport transfer takes you to an upscale hotel. Settle in, recover from the journey and enjoy a quiet first evening with your own party.

JUL 27

Giza, before the day gathers pace

02

CAIRO & GIZA

Explore the pyramid plateau and Sphinx with a private guide, starting early. The afternoon is deliberately open for lunch, pool time or a gentle return to the city.

JUL 28

The museum chapter

03

CAIRO

Set aside a dedicated guided museum visit, with the Grand Egyptian Museum as the proposed first choice. Select collections around your interests rather than trying to see everything.

JUL 29

A city of layers

04

CAIRO

A privately guided exploration of historic Cairo pairs architecture and local stories. Discuss a bazaar stop or a food-focused outing, then leave time to pack for the journey south.

JUL 30

A softer landing in Luxor

05

CAIRO > LUXOR

Fly south with arranged transfers. Check into your proposed upscale Luxor hotel and spend the afternoon settling in; keep the first evening free of a demanding program.

Proposed sequence. Hotel nights and connections are confirmed during planning.

YOUR JOURNEY / THE MAIN EVENT

The days, thoughtfully arranged.

Cairo 4 nights / Luxor 5 nights

JUL 31

06

The scale of ancient Thebes

LUXOR

Explore Karnak with a private Egyptologist. Rest during the hottest part of the day, then consider Luxor Temple later if local access and your energy allow.

AUG 01

07

A day with breathing room

LUXOR

Reserve the day for recovery and eclipse preparations. Review viewing access, driver timing, equipment and contingency arrangements, leaving time for an easy Nile-side evening.

AUG 02

08

The moment you came for

LUXOR / ECLIPSE DAY

Leave the entire day for the total solar eclipse. Travel early to the proposed site, settle in and follow the viewing plan through the partial phases and totality.

AUG 03

09

Tombs, temples, and time to reflect

LUXOR WEST BANK

A private guided morning visits selected tombs in the Valley of the Kings and, if appropriate, Hatshepsut's temple. Return for a leisurely final afternoon.

AUG 04

10

A graceful departure

LUXOR > CAIRO > HOME

Travel through Cairo for the onward international journey with connection margin built into the final plan. Add an overnight if the confirmed flight schedules make it preferable.

Proposed sequence. Hotel nights and connections are confirmed during planning.
